The Committee also monitors and evaluates corporate governance practices as well as periodically reviews related guidelines to ensure their alignment with business operations and corporate governance practices at national and international levels. Moreover, corporate governance is specified as one of the main items on the agenda at the Board of Directors Meeting.

Added to this are the internationally-recognized benchmarks, such as ASEAN Corporate Governance Scorecard (ASEAN CG Scorecard) and DJSI Sustainability Assessment. The Governance and Nomination Committee takes charge of considering and proposing to the Board of Directors the establishment and implementation of the policy and guidelines for their approval. For issues that have yet been covered or implemented, the Management is to report to the Governance and Nomination Committee for review on an annual basis.

The Board of Directors compiled knowledge and practices in management passed down from generation to generation and proven to be in alignment with the corporate governance principles. They were codified into SCG's corporate governance guidelines, first published in 2003. Last updated in 2021, the booklet is now also published on the Company's website (www.scg.com).

In case that the appointed independent director is the person who has or used to have a business relationship, or provision of professional services at a value exceeding the specified amount under item 4 or 6, the Company shall be granted an exemption from such prohibition of having or having had a business relationship or provision of professional services at such excessive value, provided that the Company has obtained an opinion of the Board of Directors indicating that after a consideration in accordance with Section 89 / 7 of the Securities and Exchange Act, the appointment of such person does not affect the performance of duties and the giving of independent opinions, and that the relevant information is disclosed in the notice of shareholders' meeting under the agenda of the appointment of an independent director.

In 2021, all the six Independent Directors neither had involvement in any business nor provided any professional service whose value exceeded the specification in the Notification of Capital Market Supervisory Board Re: Application for and Approval of Offer for Sale of Newly Issued Shares. However, Mr. Thapana Sirivadhanabhakdi is currently hold his directorship in companies that may be deemed to have the same nature of business as and to be in competition with the Company, and whose business relations with SCG are worth in excess of 20 million Baht, which require to inform the meeting of shareholders prior to the appointment. Upon reviewing the candidate's qualifications for directorship and independent directorship in relation to the Public Limited Companies Act B.E. 2535 and Section 89/7 of the Securities and Exchange Act B.E.2535, the Board of Directors was of the view that the business relations would not affect the candidate's ability to fulfill his duties nor his independence of opinion. Therefore, his qualifications of independent directorship regarding the restriction related to the candidate's previous or existing business relations was relaxed by the power of the Notification of the Capital Market Supervisory Board No. TorJor. 39/2559 Re: Application for Approval and Granting of Approval for Offering of Newly Issued Shares (Amended) which has been informed and relaxed by the Annual General meeting of Shareholders in June 8, 2020.

In addition, several areas of expertise were also added to the Board Skill Matrix, namely expertise on Digital Transformation, Energy Management, ESG (Environmental, Social and Governance) knowledge and experience in Decarbonization , Diversity Equity and Inclusion (DE&I)

Policy on Director Qualifications and Nomination

In 2018, on the suggestion of the Governance and Nomination Committee, the Board of Directors formulated the Policy on Director Qualifications and Nomination, based on the Corporate Governance Code for Listed Companies of SEC, Corporate Governance guideline of IOD and the corporate governance criteria in the DJSI Sustainability Assessment (DJSI). The policy also takes into account the diversity in the Board's composition; as well as the qualification, knowledge, and expertise of the directors required by the Board Skill Matrix and in line with SCG's business strategies. The policy and the guidelines are annually review and updated as appropriated.

1. Principle

In accordance with SCG Corporate Governance Principle, director nomination and selection is of paramount importance as the Board of Directors plays a critical role in formulating strategies and business directions for the sustainable growth of SCG. As such, the Board of Directors has deemed it appropriate to establish a Policy on Director Qualifications and Nomination.

The Board of Directors must be composed of Directors who have all qualifications and possess none of the prohibited characteristics prescribed by the law and the Company's Article of Association, and should consist of a diverse range of skills, experiences, knowledge, and expertise beneficial to the Company, without any discrimination on the grounds of gender, age, ethnicity, nationality, religion, country of origin, cultural background and tradition, so to enable to the Company to achieve its objectives and business goals and promote a management system guided by SCG Corporate Governance Principle in order to bring about fairness and transparency as well as the ability to generate returns and added values in the

long term to shareholders and inspire trust in all stakeholders, all of which will lead SCG towards sustainable growth.

3. Director nomination

The Board of Directors has entrusted the Governance and Nomination Committee with the task of nominating qualified candidates for directorship to replace Directors retiring by rotation or under other circumstances to the Board of Directors and/or the meeting of shareholders for appointment. The Governance and Nomination Committee selects candidates from a pool of qualified individuals with expertise from various disciplines who possess leadership, a breath of vision, integrity and ethics, clear and unblemished career records, as well as the ability to express opinion independently, without any discrimination on the grounds of nationality, ethnicity, gender, and cultural background.

In 2021, in the nomination of qualified candidates to replace directors due to retire by rotation in 2022, the Governance and Nomination Committee selected the qualified candidates without discrimination based on gender, age, ethnicity, nationality, country of origin, skin color, religion, cultural background, or customs, consisting of those nominated by the Company's directors and those listed as IOD's chartered directors, consistent with the Company's policy on director qualifications and nomination.

In addition, the following key components were also taken in the nomination of directors.

3.1. Required qualifications of individual directors

The Governance and Nomination Committee should consider and prescribe a set of qualifications of individual candidates for directorship, such as:

- Integrity and accountability
- Ability to make informed judgments
- Maturity, firmness, and the ability to listen well and express independent opinion
- Commitment to principles and professionalism
- Other qualifications as the Governance and Nomination Committee deems vital

3.2 Required knowledge and expertise of the Board of Directors

The Governance and Nomination Committee should prescribe a set of knowledge and expertise requirements for the Board of Directors and formulate a Board Skill Matrix to help inform the selection and nomination of qualified candidates. These requirements should encompass knowledge and areas of expertise that will enhance the ability of the Board of Directors to formulate strategies and policies as well as ensure their effective implementation, such as:

- Accounting and finance
- Organization and human resources management
- Risk management
- Crisis management
- Industry knowledge
- International marketing

- Knowledge and specializations in areas that the Governance and Nomination Committee believes will become critical in the next 3-5 years, such as E-commerce, Research and Development, and Merger and Acquisition, Technological Skills, Cybersecurity, Data Management, Retail Business, Supply Chain, Health and Safety, and Experiences in Regional and International Organization Management

3.3 Diversity of the Board of Directors

In addition to the two aforementioned factors, the Governance and Selection Committee may consider prescribing other qualification requirements relevant to the diversity of the Board of Directors, such as gender, age, ethnicity, nationality, religion, country of origin, cultural background and tradition.

4. Nomination of Current Directors

If the Governance and Nomination Committee nominates current directors, their performance should be considered.

Nomination and Selection Process of New Directors

As leaders of the organization, directors have crucial roles, duties, and responsibilities. To ensure that the nomination and selection of directors follows clearly defined steps and is characterized by systematicity, transparency, and alignment with the Company's policy on director qualifications and nomination as well as SCG Corporate Governance Principle so as to obtain candidates who with qualifications, expertise, skills, and experiences in accordance with the Company's strategies, the Board of Directors, on the suggestion of the Governance and Nomination Committee

Rules and Procedures for the Election of Directors

1. Prior to the Annual General Meeting of Shareholders, the Governance and Nomination Committee proposes to the Board the names of persons to replace directors to be retired by rotation. The nominees will then be listed for consideration for election during the Meeting. All shareholders have an equal right to propose other candidates. Authority to select directors rests with shareholders.
2. A shareholder shall have one vote for each share he holds or represents.
3. At the election of Directors, the shareholders shall vote for each individual candidate nominated for Directors, but not exceeding the number of Directors required for that election. The vote shall not be distributed.
4. The candidates shall be ranked in descending order from the highest number of votes received to the lowest, and shall be appointed as directors in that order until all of the director positions are filled. If the votes cast for the candidates in descending order are tied, which would otherwise cause the number of directors to be exceeded, the chairman of the Meeting shall cast the deciding vote.

Performance Assessment and Knowledge Enhancement

1. Assessment of the Board's Performance

SCG has stipulated a performance assessment and a review of the performance results of the Board of Directors and Sub-committees at least once a year on a yearly basis. The assessment is divided into two types, namely the performance assessment of the Board of Directors as a whole and the self-assessment. On top of this is the performance appraisal of the Chairman of the Board of Directors. The Board of Directors then analyzes and summarizes the results of the assessment to formulate measures to further enhance the efficiency of the Board of Directors.

As for the performance assessment of the Board of Directors as a whole and self-assessment, the Governance and Nomination Committee is tasked with reviewing the performance assessment forms for the Board of Directors and the Sub-committees, the performance assessment form of the Chairman, and information needs questionnaires used to enhance the knowledge and performance of the directors; and proposing these forms to the Board of Directors for review.

The Corporate Secretary Office distributed the assessment forms to each director for assessing the performance of the Board of Directors and the Sub-committees in which he serves. Afterwards, the Corporate Secretary Office summarized and presented the results of the performance assessment to the Governance and Nomination Committee and the Board of Directors for acknowledgment and later submitted the assessment results to the Chairman of the Board and the Chairman of each Sub-committee.

In 2021, the performance assessment results of the Board of Directors and the Sub-committees were summarized as follows:

Board of Directors/ Sub-committees	Performance Assessment Results (As a Whole) (%)	Performance Assessment Results (Self-Assessment) (%)
1. The Board of Directors	97	98
2. The Audit Committee	100	99
3. The Governance and Nomination Committee	99	99
4. The Remuneration Committee	99	98
5. The CSR Committee for Sustainable Development	99	99

Performance Assessment of the Board by Independent External Consultants

In addition to the annual performance assessment of the Board of Directors both as a whole and self-assessment, the Board of Directors has also introduced a policy subjecting itself to a performance assessment by independent external consultants every three years to develop guidance for enhanced efficiency and to ensure compliance with the Corporate Governance Code stipulated by the Securities and Exchange Commission (SEC) B.E. 2560 and DJSI's governance assessment guidelines. The policy was first implemented in 2015.

In 2020, the Board of Directors, at the suggestion of the Governance and Nomination Committee, selected Aon Solutions (Thailand) Co., Ltd. as its independent external consultant ("the consultant") to perform the annual board performance assessment for 2021 in order to evaluate its structure, roles and responsibilities and ensure that the performance of the Board of Directors was in accordance with international corporate governance standards and widely accepted best practices. The opinions and recommendations of the consultant would then be used to improve the operational plans of the Board of Directors in various areas.

In 2021, the consultant assessed the board effectiveness using its approach and method and submitted the assessment report along with suggestions, which were summarized and presented to the Governance and Nomination Committee and the Board of Directors to consider the implementation of the consultant's suggestions.

From the opinion of the consultant, the Board of Directors was found to consist of outstanding directors who possessed vast knowledge, experience, and expertise useful for SCG's business operations. In addition, the Board of Directors was able to work with the Management efficiently and drive the achievement of the missions of the current key businesses as well as strengthen them for the future. SCG's assessment result was higher compared to those of leading organizations in Thailand, Singapore, and Malaysia. The consultant also offered the following suggestions for board development planning.

- Develop directors to foster growth and innovation by equipping them with knowledge and understanding of external contexts and trends related to the economy, society, industry, competition, consumer behavior, or other key factors that impact SCG's long-term growth.
- Encourage directors' involvement in human resources management, especially on issues that can have long-term business impacts, such as personnel development, labor market, and manpower planning both in Thailand and overseas.
- Promote dynamics and resilience among directors based on current risk issues as well as medium-to long-term disruptive risks.
- Continuously promote sustainable governance in business operations through the ESG (Environmental, Social and Governance) concept.

2. The Assessment of the President & CEO and SCG Top Executives

The Board of Directors and the Remuneration Committee assess the performance of the President & CEO based on the Company's operating results, implementation of the Board's policies, and the overall socio-economic circumstances. The Remuneration Committee will then consider the appropriate remuneration for the President & CEO and top executives of SCG and propose such amount to the Board taking into account the following information regarding the current and previous years:

1. The business unit's operating results based on percentage of EBITDA on operating assets. The target EBITDA percentage for each business unit of SCG shall be set forth each year for assessment and comparison purposes.
2. The operating results of the business unit compared to those of other companies in the same industry, both locally and internationally.
3. The capability to develop the business unit and improve operational efficiency for each business unit each year.

In addition, a survey on manager-level employees' opinions regarding the President & CEO and the top executives is included in the Remuneration Committee's consideration.

3. Development of Directors and Top Executives

SEC's Corporate Governance Code for Listed Companies 2017 includes a guideline stating that the Board of Directors should ensure that the Board and each individual director understand their roles and responsibilities, the nature of the business, the company's operations, and relevant laws as well as encourage all directors to enrich their skills and knowledge on a regular basis. In addition, SCG's Charter of the Board of Directors stipulates that it is the Board's duty to regularly develop its knowledge and competency through training sessions or courses relevant to their directorial duties or seminars that enhance their knowledge.

The Board of Directors approved the formulation of a systematic director training and development plan in writing. In addition, training records would also be kept to inform the knowledge and competency development for each director.

The Governance and Nomination Committee deemed it appropriate to arrange activities to enhance knowledge beneficial to the performance of duties and responsibilities of the Company's Directors. As a consequence, the Company has held many dialogs, allowing for an exchange of experience and views among the directors, top executives and outside experts since 2011.

In 2021, the Governance and Nomination Committee organized seminars in order to enrich directors and top executives' knowledge and understanding of the external context. Held virtually and attended by external experts in various fields from both Thailand and overseas, the seminars organized were as follows:

- Two seminars on ESG (environment, society, and governance) concepts

- First seminar: WBCSD Vision 2050: Time to Tranfrom, held May 27, 2021

- Second seminar: ESG and Climate Resilience, held June 23, 2021

Other seminars were also held to equip SCG directors and executives with knowledge and understanding of sustainable business practices guided by concerns for the environment, society, and governance, an issue of interest among domestic and foreign investors today. During the sessions, the participants exchanged ideas and were given beneficial suggestions from the speakers that they could use to compare with and develop SCG's current business operations.

- Third seminar: A seminar on competition and consumer behavior entitled Customer Centricity as The Key Value Creator, held September 23, 2021

- Fourth seminar: Energy Transition Outlook by Det Norske Veritas (DNV), held October 27, 2021

In addition, SCG encourages all members of the Board and the top executives to attend seminar and courses beneficial to the fulfillment of their duties as well as exchange ideas with the Board of Directors and top executives of different organizations. The courses that they are encouraged to attend include both those hosted by the SCG Human Capital Institute and those organized by governmental regulating bodies or independent organizations, such as the courses for the Board of Directors offered by the Thai Institute of Directors (IOD). This is so that they can apply the knowledge and experienced gained to the development of the organization.

4. Encouraging staff at all levels to be conscious of ethics and morality and comply with SCG's principles of corporate governance, Code of Conduct and the Anti-corruption policy while overseeing the proper internal control system and internal audits to reduce the risk of fraud and abuse of authority and prevent any illegal act.
5. Monitoring and managing any potential conflicts of interest between the Company, the Management, the Board of Directors, or shareholders as well as overseeing to prevent misuse of SCG's assets and the entering into inappropriate transactions with persons connected with SCG.

To make certain that SCG had a risk management system and internal control that would enable it to achieve its objectives effectively and ensure compliance with relevant rules and standards, the Board of Directors approved a Risk Management Policy to clearly establish in writing a framework for SCG's risk management procedure in line with SCG's good corporate governance principles and international practices.

Principle 7 Ensure Disclosure and Financial Integrity

The duties of the Board of Directors are as follows:

1. Overseeing and monitoring the Company's liquidity and debt service coverage together with emergency plans and mechanisms in case of problems arising.

It is necessary, therefore, to define and administer measures concerning the disclosure of information, both financial and non-financial. Information shall be complete, sufficient, transparent, reliable and up-to-date.

SCG has defined a Disclosure Policy in writing to provide guidelines for all employees since 2008, revised in 2017 under the resolution of the Board of Directors to keep it in alignment with the current laws and best practices of the Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET). In addition, SCG has developed a Disclosure Guideline for material information. These efforts not only enable SCG employees and relevant units to disclose information correctly but also assure shareholders, investors, and all stakeholders that SCG is committed to the accurate and transparent disclosure of information in compliance with the laws and in an equitable manner. Details of the policy and guidelines are published on SCG websites for all stakeholders and the public.

Furthermore, the Disclosure Checklist was developed, revised and disseminated to relevant units for use in self-assessment of their standards to work efficiently and in compliance with the Disclosure Policy, which would further promote the sustainability of SCG's disclosure practices. SCG is committed to strictly obeying the law, regulations, and obligations mandated by the Securities and Exchange Commission (SEC), the SET and relevant government bodies. Regular amendment takes place to ensure accurate information disclosure and to guarantee SCG's transparency in conducting business. For example, the Company:

Furthermore, the Board of Directors approved the establishment of Code of Conduct for Investor Relations (IR) to ensure that SCG's investor relations practices are appropriate and fair to all stakeholders. The Code of Conduct for IR compiled all SCG's best practices related to investor

relations to provide clear guidelines for IR officers in their performance of duties in compliance with SCG Corporate Governance Principles. The endeavors will add value to the Company and create confidence among shareholders, investors, the general public, and all stakeholders, leading to sustainable business operations.

Code of Conduct

▪ SCG Code of Conduct

SCG is a leading company group that has been in business for over 100 years. Founded in 1913 under a Royal Decree of His Majesty King Vajiravudh (King Rama VI) of Chakri Dynasty as one of Thailand's first companies, SCG has continued its operation to this day, in the reign of His Majesty King Maha Vajiralongkorn Bodindradebayavarangkun (King Rama X) of Chakri Dynasty (hold approximately 33.6%), as a well-recognized model of good corporate governance for many other organizations.

SCG owes its current prosperity, success, and stability to its ethical business conduct and core values, which the Board of Directors, the Management, and employees at all levels have adopted in strict adherence, namely:

- Adherence to fairness
- Dedication to excellence
- Belief in the value of the individual
- Concern for social responsibility

In 1987, the Board of Directors compiled the practices which have been valued and adhered to for over 100 years in a formal written document called the "Siam Cement Group Code of Ethics", currently known as **SCG Code of Conduct**, to serve as guidelines that were aligned with SCG's philosophies with the Company's directors serving as role models. SCG employees must also conduct themselves as good citizens in countries where SCG operates to create value and maximize

benefits for the Company. It has been constantly updated to better correspond with the evolution of SCG and suit the shifting economic and social climate.

To ensure that SCG Code of Conduct is suitable and consistent with both national and international corporate governance principles and can be readily applied by all employees both at home and overseas, in 2021 the Board of Directors approved a review of the principles and practices therein. To this end, a working team consisting of divisions related to each area of corporate governance was tasked with improving and recommending good practices, and the review frequency of the code of conduct was increased. In addition, opinions were garnered from SCG employees overseas to ensure the completeness, currency, and applicability of the 2021 revised SCG Code of Conduct.

Moreover, SCG has also exchanged its knowledge and experience regarding SCG Code of Conduct as well as the development of SCG's guidelines for corporate governance with interested companies and organizations both in the government and private sectors to support and raise awareness about ethical business conduct, fair treatment of stakeholders, and corporate social responsibility.

SCG also established the whistleblowing policy, to protect any employee who files a complaint or reports on improprieties or suspected violations of laws, rules and regulations, the Company's Articles of Association, SCG Code of Conduct, and Anti-corruption Policy. In this regard, the Company has formed a working team responsible for devising policies and providing consultancy regarding compliance with SCG Code of Conduct. This team comprises the top management in business units responsible for relevant matters, each of whom is tasked with monitoring the performance results and providing counsel on relevant matters. In addition, the Company has established channels through which employees can voice their opinions and make inquiries about SCG Code of Conduct, which can be found on SCG Intranet Portal called "GRC Helpline".

Raising Governance and GRC Principle (Governance, Risk, and Compliance) Awareness

To further raise awareness of and to promote strict adherence to SCG Code of Conduct among employees, the Company provides lessons on SCG Code of Conduct to employees at all levels via various learning tools since their first day of employment. In addition, SCG regularly organizes activities to foster the awareness and has included it as one of the key factors in the annual employee evaluation.

In 2021, Due to the COVID-19, the Company has redesigned operational activities to align with situations and government measures by harnessing online platforms to communicate with employees. In 2020, the following activities were carried out:

- Promoting awareness of SCG Code of Conduct and relevant policies through infographics disseminated through internal communication channels
- Publishing GRC VOICE e-Newsletter on a quarterly basis to communicate GRC-driven work practices to enable employees to put them into practice
- Publicizing SCG GRC e-Rulebook, available both in English and Thai, which aims to educate SCG employees on how to apply GRC concepts to their work and daily life
- Producing video clips and infographics on SCG GRC Expected Behaviors, which are disseminated via internal email and aimed at enabling employees to promptly adopt such behaviors
- Producing a video clip introducing GRC Helpline, which offers consultation on governance risks, compliance, and internal control, to encourage employees to use the system and promote their operational efficiency even when working from home.

▪ **Investor Relations Code of Conduct**

The Company has compiled this Investor Relations Code of Conduct to establish guidelines for correct and proper practices to which investor relations officers (IROs) can adhere. The Code of Conduct details fundamental principles regarding information disclosure, inside information protection, fair and equitable treatment of stakeholders, and integrity, all of which are consistent with SCG Corporate Governance and form a basis on which added value can be created and on which the Company can inspire confidence in its shareholders, investors, the general public, and stakeholders.

▪ **SCG Supplier Code of Conduct**

SCG drew up the SCG Supplier Code of Conduct, in which suppliers are defined as any suppliers, contractors, and/or service providers for SCG, to ensure an accurate understanding among SCG suppliers. The Code serves as guidelines for SCG suppliers in cooperating with the Company in becoming good corporate citizens and in adhering to good corporate governance, guided by the interests of society and the environment. The Code of Conduct also serves as mutual standards for business conduct and SCG suppliers are required to sign the acknowledgment of the SCG Supplier Code of Conduct before conducting business with the Company.

Reviewing the Implementation of SEC’s Corporate Governance Code

As suggested by the Governance and Nomination Committee, the Board of Directors has been reviewing the implementation of the 2017 Corporate Governance Code (CG Code) issued by the Securities and Exchange Commission (SEC) regarding the roles and responsibilities of the governing board. The Board of Directors has deliberately reviewed the principles set forth in the CG Code and recognized the benefits and significance of adopting the CG Code, which focuses on integrating social and environmental issues into corporate governance with the goal of creating value for sustainable development. The CG Code consists of eight main principles as follows.

- Principle 1: Establish Clear Leadership Role and Responsibilities of the Board
- Principle 2: Define Objectives that promote Sustainable Value Creation
- Principle 3: Strengthen Board Effectiveness
- Principle 4: Ensure Effective CEO and People Management
- Principle 5: Nurture Innovation and Responsible Business
- Principle 6: Strengthen Effective Risk Management and Internal Control
- Principle 7: Ensure Disclosure and Financial Integrity
- Principle 8: Ensure Engagement and Communication with Shareholders

For Principles that are not readily applicable to the company’s business, the Board of Directors has formulated replacement measures and recorded them as part of the Board’s resolution to be reviewed on a yearly basis. In 2021, areas which may not have fully covered the criteria of the Corporate Governance Report of Thai Listed Companies in full details are shown in “Corporate Governance Development in 2021”

Corporate Governance Development in 2021

The Company has applied the Corporate Governance Code for Listed Companies 2017 (the CG Code) developed by the Securities and Exchange Commission (SEC) to SCG business operations where deemed appropriate. In 2021, the areas where the CG Code had yet to be adopted and were governed by comparable replacement measures were as follows:

1. The chairman of the board is not an independent director.

The current Chairman of the Board is an executive of the major shareholders. However, the Board of Directors has clearly specified the duties of the chairman so that emphasis is placed on the interests of the company, shareholders, and stakeholders. In addition, all Board members required to assess the performance of duties of the Chairman on a yearly basis.

2. The tenure of an independent director exceeds a cumulative term of nine years.

In case that each independent director hold the position of independent director for more than nine consecutive years, he or she is re-elected to hold such position in excess of nine consecutive years based on the reasons and necessities as proposed by the Company. The Board of Directors deliberates on the independence of the director if the re-election is deemed appropriate.

In 2021, to ensure that SCG had a corporate governance system at all times, to improve its corporate governance efficiency, and to enhance its corporate governance standards in accordance with CG Code 2017, SCG carried out seven important activities related to the review of its corporate governance policy, guidelines, and system or the charters of the Board of Directors and the Sub-committees, as detailed below

- 1) Reviewing SCG Code of Conduct (7th Revision)
- 2) Reviewing the charters and performance assessment forms of the Board of Directors and the Sub-committees
- 3) Reviewing the the Policy on Director Qualifications and Nomination and the Board Skill Matrix
- 5) Establishing Tax Policy
- 6) Passing the recertification by the Thai Private Sector Collective Action Against Corruption (CAC)
- 7) Reviewing Anti-corruption Policy

Message from the Board of Directors

SCG has continuously carried on its business for over 100 years under the thorough supervision of the Board of Directors to fulfill its commitment to just and responsible business conduct toward every stakeholder and adherence to the long-standing principles observed and practiced since the Company's establishment. All of this is achieved under the Code of Conduct, which is constantly reviewed and adjusted to reflect economic and social changes on the basis of balanced and sustainable growth.

The Board of Directors has deemed that the principle of Corporate Governance is a universally-accepted organizational management guideline that closely corresponds with SCG's core values and Code of Conduct. As such, the Company has compiled and employed various bodies of knowledge and practices relevant to organizational management in its business conduct, which is rooted in ethics, integrity, and social responsibility, as consistently practiced and passed down from generation to generation insofar as it is evident and accepted that such guidelines truly correspond with and achieve the same objectives as the principles prescribed by the SCG Corporate Governance. Therefore, these guidelines have been compiled in SCG Corporate Governance, first published in 2003.

Given the shifting social and economic landscape as well as the global climate of attempts to define guidelines and principles for organizational management that are in line with international corporate governance standards so as to create confidence in stakeholders and promote sustainable growth, the Board of Directors has approved a revision of the content of SCG Corporate Governance to keep it aligned with current changes. The revision is carried out in adherence to The Principles of Good Corporate Governance for Listed Companies 2012 stipulated by the Stock Exchange of Thailand, Corporate Governance Code for Listed Company 2017 stipulated by The Securities and Exchange Commission, and The Thai Institute of Directors Association as well as the ASEAN Corporate Governance Scorecard, which aims to elevate corporate governance of listed companies in ASEAN nations to international standards.

SCG aims to develop the organization as a model in Corporate Governance and has declared such a commitment in SCG visions because of its conviction that SCG Corporate Governance is a management system that will create fairness, transparency, return, and added values for shareholders in the long run as well as create confidence in every stakeholder and promote the Company's competitive capability for sustainable growth.

In the formulation of business strategy formulation, identify the relationships and materiality of issues to SCG and stakeholders.

Develop stakeholder maps to identify stakeholders and relevant parties in SCG and to understand the perspective of stakeholders, potential impacts, and expectations of each stakeholder group. These stakeholder maps will be used in designing means of responding to the needs of stakeholders as well as appropriate strategies and communication methods that will sustainably influence the operation of SCG.

Good relations with stakeholders should be initiated from the very beginning, that is, from the planning stage, so that plans can be adjusted or work procedures can be revised on time.

2. Adopting Communication Strategies

Closely communicate and persistently build understanding with stakeholders in order to gain correct perception and lead to good relationship with and trust from stakeholders by adopting particular communication strategies, methods, formats, and procedures suitable to each group of stakeholders, situation, duration, and local culture. This may be determined by the degree of damage or the possible impact incurred from negligence or inaction.

3. Disclosing Information

Disclose information accurately, explicitly, transparently, and comprehensively in order to assure that the stakeholders received sufficient, consistent, and timely information. For example, the disclosure of useful information should be done at the appropriate time, stated the real purpose of information and assured that there is a transparent process of reporting information to stakeholders.

However, in disclosing information, one should consider a factor of appropriateness and follow SCG Disclosure Policy.

4. Encouraging Participation

Encourage stakeholders to participate in matters that affect them; provide channels for receiving suggestions, problems, and complaints from stakeholders; give priority; welcome opinion and exchange views (Stakeholder Dialogue) constructively in order to perceive ideas, expectations, and needs of stakeholders. In doing the Stakeholder Dialogue, one must recognize that differences of stakeholders may affect the opinions, e.g. age, gender, education, experience, attitudes, etc. Moreover, one should provide preliminary information prior to discussion, report outcomes of the discussion, disseminate reports to participants, and collect information systematically. SCG should also consider participating in giving opinions and identifying problems or obstacles to those having roles in regulating rules and orders which could have a widespread economic, social, and environmental impact.

5. Managing risks related to stakeholder engagement

Anticipate, identify, and prioritize risks related to stakeholder engagement in order to prepare plans to ensure a creative exchange of opinion with stakeholders. Risks that should be considered include reluctance to participate, fatigue, dissatisfaction with SCG's responses, presence of reserved stakeholders among those who prefer to share their opinion, presence of stakeholders who intentionally obstruct an exchange of opinion, presence of stakeholders who have not received information, presence of stakeholders who do not have leverage, technical problems, and conflict among stakeholder groups.

6. Reviewing and reporting

Inspect and assess stakeholder engagement systematically to continuously enhance stakeholder engagement; develop action plans; foster cooperation between stakeholders and related parties in SCG, track the cooperation development process, and report to stakeholders. In addition, SCG must also disclose the overall results of its stakeholder engagement to the public, including obtained results, impact, and operation scopes, as well as demonstrate the relations between benefits from stakeholder engagement and SCG's operations.

The Duty of the Management

The duty of the management is to ensure efficient and effective stakeholder engagement operations in accordance with the policy by providing suitable resources, such as budgets and sufficient knowledgeable and skilled responsible individuals, and by putting in place systems of taking suggestions from stakeholders, compiling information, monitor progress, and conducting assessment. 2. Environment, Health and Safety

Principle

2.1 Environment

SCG is committed to environmental conservation and management across its value chain. To this end, the Company encourages compliance with laws and its own policies on the environment and climate as well as requires the same level of environmental practices with SCG's environmental and climate policies as a baseline standard among all suppliers, direct and indirect service providers, key business partners, and business associates in, for instance, non-executive operations, external procurement, greenfield projects and renovation projects, agreement making, as well as mergers and acquisitions. SCG also cultivates consciousness about these issues among its employees and all parties involved in its business operations in order to promote compliance with related practices, incorporate environmental management into the organizational culture, and encourage concrete implementation.

Definition

Products and services mean what SCG delivers to its customers, including products, services, and solutions.

Guidelines

1. Conduct business on the basis of relevant environmental laws, standards, regulations, and guidelines and cooperate in complying with international agreements that are consistent with global, national, and local issues in order to prevent or mitigate environmental impacts.
2. Conduct business with consideration to the sustainable conservation of natural resources, energy, and water through eco-efficiency and circular economy activities; reduction of environmental impacts; adaptation to climate change; reduction of pollution emissions; reduction of the generation of hazardous and non-hazardous wastewater and other waste, with zero waste to landfill; the preservation of biodiversity and eco-systems with the commitment to achieving net-zero environmental impact; supply chain management; green procurement; and the development of green products and services.
3. Establish an environmental management system as part of business operations, with continuous monitoring, reporting, and assessment in order to elevate the Company's environmental performance.
4. Conduct assessments to identify materiality or environmental risks relevant to SCG's business operations and manage such issues as well as establish key performance indicators, action plans, and strategies in order to achieve operational goals.
5. Disclose information on environmental management with transparency and accountability through appropriate channels and allow stakeholders to participate by expressing opinions on environmental issues according to their expectations.
6. Provide knowledge and cultivate awareness on environmental preservation and management among business associates, customers, suppliers, stakeholders, and surrounding communities through appropriate channels, as well as provide support and assistance regarding environmental management to stakeholders, especially communities around SCG's facilities.

Examples

1. If a person offers goods to you at the price lower than the current supplier's but these goods has not yet been registered in SCG environmentally friendly goods and service list while there are enlisted vendors selling the same products, how do you consider purchasing the goods?

Advice: You must order goods according to SCG's regulations. In case there is a listed vendor selling the same products, you have to purchase from the listed one. However, in case other vendors desire to enter the list, you may give advice on the manufacturing process and encourage them to make a registration request for potential purchase consideration in the future.

2. A subordinate tells you that she has heard the local people talk about their trouble with a black, smelly liquid flowing from the vicinity of your plant into the community's land. They do not know whom to contact or how to complain. As her superior, what should you do?

Advice: Coordination and/or remedy must be taken urgently to accommodate complaints and allegations, either present or potential, concerning environmental problems caused by corporate operations. You should investigate the fact and analyse the data. If a resolution is possible, designate a responsible person, determine the timeframe, and report on progress to those affected or may be affected and to your superior at a higher level so that the problem can be rectified as soon as possible.

3. Climate change is an issue that has garnered a lot of public attention, and carbon tax laws are set to be enacted soon. As your organization emits a large amount of greenhouse gases, how should you consider climate change issues if you are part of the organization's business plan and risk management team?

Advice: You should consider enterprise risks by taking into account issues related to climate change, such as by establishing a risk matrix that includes climate change issues, conducting climate change scenario analysis, and clearly identifying impacts on the business in order to formulate risk management plans, such as installing energy-efficient equipment to reduce greenhouse gas emissions and tax burdens, reducing water consumption, and seeking water reserves in preparation for drought, as well as develop business action plans, such as the manufacturing of products and services, that help reduce greenhouse gas emissions in response to changing consumer behavior.

4. Your company is proposing an investment project that falls into the category of environment and energy for approval. You have been assigned by your supervisor to prepare data for the calculation of the financial returns to supplement the approval request. Given SCG's policy to achieve net-zero emissions by 2050, what should you do in pursuit of the goal?

Advice: You should prepare data on the amounts of any raw materials, fuels, energy, waste, among others, of the project that affect greenhouse gas emissions and show the net increase or decrease of greenhouse gas emissions as a result of the project, separated into Scopes 1 and 2. In addition, you should calculate financial returns of greenhouse gas emissions (or carbon dioxide (CO₂)emissions) based on the internal carbon pricing (ICP).

2.2 Health and Safety

SCG places great emphasis on the health and safety of employees, suppliers, customers, communities, and stakeholders across the value chain, encompassing the manufacturing process, service and solution provision, as well as logistics and transportation, both in local and overseas offices. Health and safety impact assessment and risk management must be conducted before making any investment, entering into any joint venture, or initiating greenfield projects or renovation/improvement projects. All facilities, manufacturing processes, technology, machines, equipment, raw materials, services, logistics, and transportation must be taken care of to ensure the health and safety of all relevant stakeholders. In addition, health and safety awareness must be cultivated among employees and related parties to ensure compliance with relevant practices.

Guidelines

1. Conduct business on the basis of relevant health and safety laws, standards, frameworks, standards, regulations, and practices and cooperate in complying with international agreements in areas that are consistent with relevant issues in the country where SCG operates as well as other relevant global, national, and local issues in order to prevent or mitigate potential impacts.
2. Examine your own readiness and physical health including co-workers, contractors and relevant parties' before commencing work and during operations. If the persons doing the work are unhealthy or not ready, the work must be stopped or ordered to stop immediately so as to prevent exposure to unnecessary danger at work or caused by work.
3. Operate business with consideration to the minimization of impact on health and safety by conducting risk assessment before commencing work and, upon changes, studying information related to manufacturing processes, operational instructions, work environment, as well as the qualifications, knowledge, and competency of the operator in order to plan or prepare appropriate prevention.
4. Immediately report to the superior any irregularity detected in the manufacturing process, machinery, equipment, or work environment that may affect health and safety. In case of being assigned harmful work or not being confident in safety at work, the work must be stopped or held. And you must immediately consult the supervisor or expert.
5. Establish an occupational health and safety management system as part of business operations, with continuous monitoring, reporting, and assessment in order to ensure compliance with the stipulated policies and elevate the Company's operations.
6. Employees at all levels are responsible for complying with and ensuring compliance with relevant health and safety laws/regulations, standards, and instructions in their teams. Superiors are responsible for formulating and disseminating accident prevention and control guidelines as well as fostering an understanding among employees. They should also inspect the health of the workers according to the risk to which they are exposed.
7. Transparently report and disclose information on health and safety performance and indicators via appropriate channels and allow stakeholders to participate by expressing opinions on issues related to health and safety.

8. Provide education and cultivate awareness on health and safety among business associates, suppliers, customers, communities, and relevant stakeholders through appropriate channels.

Examples

1. The Company expects you to order spray paint. You know an employee at a company that produces spray paint at a lower price than the brand presently used by the Company, but that manufacturer has not been certified safety standard, what should you do?

Advice: When you purchase materials and equipment, especially chemical products for use in the office or plant, you must be certain that such products have been certified for safety by the agency responsible for environmental protection or the manufacturer, and/or that you have the safety information of the products or chemicals, and that their source of manufacture is reliable.

2. A subordinate who works in the area with hazards of noise informs you that he often has trouble hearing people call him. He has gone to the doctor, who told him that this problem could be due to one of two causes: 1) exposure to a very loud noise on one occasion, or 2) remaining in a continuously loud work environment. Your subordinate feels that the source of the noise could be a machine in his workplace. As his superior, what should you do?

Advice: You must immediately launch a fact-finding investigation when you are informed of any irregular situation or event. You should rotate the subordinate to another less noisy area and uncover the cause of such loud noise by reviewing risk assessment results, work environment measurement results, and the method of operation in collaboration with relevant parties in order to find a remedy. Every employee is obliged to report unusual incidents to their superior even if it is just a minor abnormality or still uncertain to prevent or control some sudden accidents.

3. Your Company has construction project to increase production capacity for which business partners will do construction in your area. You find their incompliance with the Company's safety regulation. So as construction project head, what should you do?

Advice: You have to immediately suspend or delay the operation to carry out rectification so as to restore safety as well as control, supervise, and advise the contractors to comply with the safety regulations of the Company, in the same manner as the Company's employees, to ensure safety while they are working. You should treat the contractor as if they were the Company's employees. Before commencing work, safety training for contractors and relevant safety inspection must be conducted.

- 4) You are assigned to fix roof at the height of 4 meters by the end of this day. However, you find that all the safety harnesses have been used and none is left for you, what would you do?

Advice: You have to immediately suspend or delay the operation to carry out rectification so as to restore safety. If the assignment is dangerous or if there is no personal protection equipment (PPE) and you are not certain about safety, you should inform and ask your supervisor to provide a complete set of PPE. Working at height is considered high-risk work according to the Life Saving Rules. Therefore, the work site must be arranged to ensure safety, and the operator is required to wear a full set of PPE for every operation.

2.3 Safety of Products and Services

SCG ensures that all products and services meet safety standards as stipulated by domestic laws, industrial standards, and relevant international standards as well as meet the specifications as agreed with the customer. This applies to the entire life cycle and value chain, from product design, manufacturing, transportation, storage, usage, and end-of-life management. Sufficient information, warnings, and instructions must be provided to ensure customer safety through the life cycle of a product and service. Particular attention must be paid to the safety of all products that SCG hires others to produce, imports, or uses in sale promotion activities.

Definition

Products and services mean what SCG delivers to its customers, including products, services, and solutions.

Guidelines

1. Establish and comply with product and service safety standards that include product hazard analysis (PHA) in every step involved, from manufacturing all the way to transportation, storage, usage, and end-of-life management, so that plans can be formulated to prevent defects and shortfalls during the design and manufacturing and effective labels that meet international standards can be made.
2. Take into consideration the safety of the user throughout the useful life of a product or service in the designing, product manufacturing, service provision, and in relevant communications. Any change in the manufacturing of products or provision of services that affects safety must undergo a review of its risk assessment result and must be given prior approval from superiors or responsible persons, and the details and rationale for such change must be recorded for future reference.
3. Store information on product and service safety for future verification.
4. Report to superior right away if you know or have concern about safety of products and services caused by production process and/or service process or situation that may lead to unsafe condition to the customers.
5. Be open to safety complaint on products and services and coordinate or improve the condition right away. In case there is any limitation or in case of requiring a long time to solve the problem, the person of responsibility must report information and status to the customers at appropriate time and report progress of fixing the problem periodically.
6. Establish response measures for managing, analyzing, and investigating complaints and emergencies arising from the use of the Company's products and services. Conduct response exercises to ensure preparedness for such events.
7. Organize regular training and educational sessions for relevant employees and suppliers in matters related to product and service safety

Examples

1. You notice that your co-worker skips a production step that may affect the quality and safety of the product, what should you do?

Advice: You should consult your superior immediately since the production process is designed by the Company to ensure product quality and properties as well as consumer safety, which will help the Company maintain its standards, quality, safety, as well as reputation. Consulting the superior is thus not considered an accusation against the co-worker.

2. You are responsible for arranging transportation to deliver goods to customers, and the agreement with them specifies on-time delivery. However, you find that the vehicle is in unsafe condition, but finding a replacement would result in a delay. What should you do?

Advice: You have to inform the customers right away, consult your superior, and find a new and safe vehicle as soon as possible. While there might be some delay, the goods will arrive at the customer's site safely. Using an unsafe vehicle may result in an accident, causing damage to both the vehicle and the goods and negatively affecting the reputation and image of the Company.

3. Your Company has marketing promotion activity for new products and your subordinates talk to you that they will give the guests bottled fruit juice as souvenir. They will hire someone to produce the juice with the Company's logo. As a supervisor, what should you do?

Advice: You must be aware of the health and safety risks and assign the subordinates to check the safety of the products they are going to hire other parties to produce. The manufacturer's name must be shown on the bottle label. This is because although the Company does not produce or sell the product, as the Company hires someone to produce it and distributes it for commercial benefits, the Company has to be responsible for the safety of the souvenir as if it is the Company's product.

4. If a product of your company does not have information, instructions for use, warnings, a material safety data sheet (MSDS), and storage guidelines, what should you do?

Advice: You should recommend that the responsible unit perform product hazard analysis, encompassing the use of the product throughout the entire product life cycle, and consider potential harms for the preparation of warning labels, suggestions/instructions for use, a material safety data sheet (MSDS), storage guidelines that are adequate and sufficient for danger prevention and consistent with relevant international standards.

5. If you find that the company/ unit relevant to customer complaint slowly deals with the complaint and does not report any progress to the customers while they seem to be highly dissatisfied, what should you do?

Advice: You should coordinate with such unit and recommend them to report the update to the customers since if they know the information, they will feel that they are being cared and it will reduce level of dissatisfaction. If the complaint scope is larger than you can make a decision or the damage cost is higher than authority of the company/unit, they must be reported to the superior right away to ask for opinion and consider authority in the next level. If the company fails to do it properly, the customers may complain via public medium that may affect the company or **SCG's** image and may cause the Company to pay higher compensation.

3. Anti-Corruption

Principle

SCG's business should be conducted with stakeholder in correct, transparent, honest and traceable ways with no corruption. The business must comply with relevant laws and SCG's Anti-Corruption Policy ensuring it shall not cause condemnation or loss of reputation.

Definition

Corruption refers to any form of bribery whether it is an offer to give, promise to give, giving, commitment to give and demand or acceptance of money, properties or any other benefits which are not appropriate with or to government officials, government agencies or private agencies or competent officers whether directly or indirectly to motivate such persons to do or avoid doing something to acquire or retain the business or give any recommendation to SCG's business or to obtain or retain any other inappropriate interests from the business.

Guidelines

1. Not commit corruption and be careful with work process with high risk such as sale and marketing, procurement, project investment, contract execution, giving and receiving presents, entertainment, and donation or giving financial support etc.
2. Publicize SCG Anti-corruption Policy and provide knowledge on areas where compliance with SCG Anti-corruption Policy is required to persons involved in SCG-related operations.
3. Not ignore or overlook any transaction possibly considered as corruption relating to **SCG**. You must report to supervisor or person in charge and cooperate for fact finding activities.
4. Ensure that any giving or receiving of donation, financial support, or assets or any hiring of government employees is conducted in a transparent manner and in compliance with the Company's Anti-corruption Policy and regulations as well as relevant laws. Efforts must be made to ensure that such donation or financial support is not used for bribery, does not cause conflicts of interest, and is not paid for either direct or indirect facilitation.
5. Pay attention when doing transactions with person, juristic person or any organization involved with corruption accusation.

Example

1. A project official asks what kickback he would get if he persuades the project owner to order your Company's products. What should you answer him?

Advice: Explain to that person that **SCG** guidelines prohibit the payment of benefits that would not normally be received, other than the compensation **SCG** provides in the normal course of business.

2. The Company you are working for is requesting for a permit certificate. Advice: You should find channel to inform relevant people or people taking charge of such billboard or inform Corporate Communications Office or superior right away to find resolution.

6. You need to raise funds to help flood victims by making t-shirts with SCG logo screened on them to sell to your co-workers. Is it possible for you to do it right away?

Advice: You should request the unit taking charge of the logos in writing specifying objective of use and coordinator of the project. After getting permission, then you can do it.

7. If you find accusation of discrimination in SCG's recruitment process forwarded on social media, what should you do?

Advice: You must not forward the message nor give any comments and report to relevant party or your superior right away.

9. SCG's Transactions

9.1 Transactions between Companies in SCG

Principle

Any business or work that incurs related transaction between SCG group of companies must abide by the laws and regulations issued by state agencies; SCG's policies, practices, regulations, and the Delegation of Authority; and the principles and conditions relevant to each locality.

Guidelines

1. Carefully study the principles, policies, practices, processes, and delegation of authority that **SCG** has established for its businesses before taking action.
2. Refuse to follow the request to skip any activity in the process or ignore any activity that is required in normal process.
3. Comply with guidelines and procedures for the approval of related transactions, connected transactions or transaction with possibility of conflicts of interest for highest benefits of SCG as stipulated by laws.
4. Carry out related transactions on fair and reasonable basis without transfer of benefits among companies in SCG.

Examples

1. Company A offers to buy motor wreck that is no longer in use from Company B to use as tool for motor technician training while Company B will not charge Company A any expense since they are in SCG. Is this an acceptable practice?

Advice: It is unacceptable practice since purchase of assets between companies in SCG must be done based on market price or book value.

2. Can assignment of one employee of a company in SCG to work in another company on temporary basis be done verbally by management of the two companies?

Advice: No, it cannot. Assignment of an employee to work in another company in SCG must comply with the Human Resource Regulations, Transfer Pricing Guidelines, and Cost Center specified for correct expense collection.

- 3) Can Company A, which is a company within SCG, sells a similar product/provides a similar service under the same terms of sale and purchase to another company within SCG at a higher or lower price than to a company outside SCG?

Advice: If Company A sells a similar product/provides a similar service under the same terms of sale and purchase to both a company within SCG and a company outside SCG, Company A must charge the same amount of money.

9.2 Transactions between SCG and External Parties

Principle

Transactions with external parties must be conducted properly, and comply with laws, regulations issued by state agencies and SCG's policy and must be strictly approved based on SCG's authority table. Moreover, it must be according to the conditions agreed upon, transparent and traceable. Avoid transactions that may cause trouble or damage to SCG or external parties.

Guidelines

1. Employees should study, try to understand, and comply with laws and regulations stipulated by government agencies as well as SCG's policy and practices towards stakeholders.
2. Strictly follow the procedures set forth in the procurement and purchasing regulations of SCG. The priority in procurement should be given to legal entities rather than persons, except in cases where special expertise is required from particular individuals or where the benefit of SCG demands it, and such procurement must be in strict compliance with SCG's procurement and supplier selection policies and guidelines.
3. Each transaction should take into consideration market values and prices, together with quality and services rendered. There should be neither bias nor any obstruction in doing business by means that are immoral or illegal.
4. Avoid transactions that may have social and environmental impacts or defame SCG, although such transactions may create business benefits.
5. SCG forbids using the name of SCG, its Board of Directors, management, or any employee in conducting any transaction not related to SCG, even if it has no direct impact on SCG.
6. Support and encourage compliance with SCG Supplier Code of Conduct among suppliers as well as the adoption of SCG Supplier Code of Conduct as a mutual standard for conducting business.

Examples

1. A foreign company offers to sell machinery at a lower price than can be procured directly from the manufacturer. Are you allowed to purchase such machinery?

Advice: You may purchase such machinery, but you must carefully study the details to be sure that you are getting a machine whose condition is appropriate to the price paid. The contract must also be comprehensive in guaranteeing that the machinery has been obtained legally. A state agency, such as the Ministry of Industry, the Department of Customs, or the National Police Bureau, could be called upon to verify the matter.

2. If a customer asks SCG not to issue tax invoice to avoid paying value added tax, will you grant his request?

Advice: It cannot be done since the Company has to comply with tax code.

3. You wish to order a product for yourself from a manufacturer that happens to be a business partner of SCG. You know that if you make a contract in SCG's name you will get a larger discount than normal. Are you allowed to use SCG's name for such a purchase?

Advice: You may not use SCG's name for any transaction unrelated to SCG's business, whatever the circumstances, as it might lead the other party to believe that he / she is doing business with SCG, resulting in considerable harm to the Company. However, if SCG has deal with the vendor to offer special price for personal use, employees can order on their behalf.

- 4 You have agreed to purchase from a vendor and has issued a purchase order/made a purchase agreement with the vendor. However, you wish to alter the terms of sale and purchase because you believe the Company will benefit from an extended payment term.

Advice: Terms of sale and purchase should be established in such a way that takes into account the business condition of the supplier. As such, payment terms should be set in accordance with the financial liquidity of the supplier to ensure fairness.

10. Doing Business Abroad and International Trading

10.1 Doing Business Abroad

Principle

Any SCG business operation abroad, be it establishing a company, plant, office, branch, agent, or dealer; importing or exporting; or engaging in a joint venture, merging and acquisition overseas; must be done according to the laws and rules applicable in that country and good citizenship. Any such transaction must also take into account the circumstances, customs, traditions, and culture of each locality.

Guidelines

1. Fully comply with all the local laws of each country SCG conduct business as well as SCG Compliance Policy and relevant rules. In case SCG has guidelines, regulations, and procedures that are higher or better than stipulated by the laws, the guidelines, regulations and procedures of SCG must be complied.
2. Refuse doing any transaction likely to be against the local laws and consult your superior or SCG's legal counsel when you notice transactions that may be unclear, non-compliance with regulations or have conflicts with local laws, customs, traditions or culture.
3. Regularly monitor legal and regulatory updates in the countries where SCG operates. When in doubt, consult SCG legal counsel or relevant persons. In addition, assess risks and impacts of changes in laws and regulations in order to formulate suitable and prudent risk management plans.

Examples

1. If someone offers help in requesting plant license abroad claiming that he could access to competent officers who issue the license. However, this is against the procedure prescribed by law. What should you do?

Advice: Refuse that offer and follow normal procedure and report to your superior.

2. In case of taking over business abroad and the seller requests to put prices in the documents lower than actual prices to get tax benefits, what should you do?

Advice: You must refuse doing such a thing and consult SCG's legal counsel. You have to also study and find another solution that is more appropriate and legitimate.

10.2 International Trading

Principle

Import and export of goods or any SCG's transactions relating to foreign countries must strictly comply with relevant laws such as import and export, customs, product safety and consumer protection laws and relevant SCG's regulations and guidelines.

Guidelines

1. Study and follow up information of customers, vendors and prospective business partners. Avoid doing business with customers, vendors or business partners who do not comply with relevant laws or run suspicious business.
2. Frequently verify transactions to ensure compliance with laws.
3. Report information and submit relevant documents on import or export to relevant agents such as SCG internal units or government agencies. The information must be verified to be true.

Examples

1. You receive import invoice wrongly showing price of goods or details of goods, what will you do?
Advice: You should inform the business partner to revise the invoice to be clear and correct.
2. If a customer in a foreign country requests you to prepare documents containing contents not matching the agreed transaction to get tax benefits at the export country, what should you do?
Advice: You have to refuse preparing such document and report to your supervisor.

11. Business Competition

Principle

SCG is committed to fair business practices in compliance with the law and takes into account ethical trade practices when conducting business with its customers, suppliers and business partners, fair competition with other business operators, and trade competition laws of every country where SCG conducts business. In addition, SCG shall not engage in any act that may result in unfair trade or obstruct free competition and shall comply with its relevant policies and practices.

Guidelines

1. In the event that SCG has market dominance as defined by the law, it shall not abuse such dominance in a manner that restricts or distorts market mechanisms, such as by setting unfair product prices or terms of sale and restricting the purchasing choices of a supplier without justification.
2. SCG shall not enter into any agreement or exchange business information with its competitors or any person if such an act would disrupt, reduce, or limit fair competition between SCG and its competitors.
3. A merger, whether carried out locally or abroad, must be conducted correctly in accordance with the conditions and procedures stipulated in relevant trade competition laws, such as by seeking permission before initiating a merger or notifying relevant agencies afterwards as required on a case-by-case basis.
4. As trade competition laws and regulations are complicated and vary from one country to another, divisions whose duties pertain to domestic and overseas business operations must study and comply with relevant laws, rules, policies as well as SCG's guidelines relating to trade competition and consult SCG's legal counsel from the very start.

Examples

1. You have received an invitation from a competitor to meet and exchange ideas about marketing plans and allotting customers and sales territories. This would help reduce price competition in sales. What should you do?

Advice: Refuse to take part in the discussions, and make known that SCG's policy prohibits employees from exchanging ideas about such matters. This invitation should then be reported to your superior.

12. Anti-Laundering Measures

Principle

SCG complies with all guidelines and laws pertaining to the suppression of money laundering. SCG will not accept transfers or conversions of assets or support such actions insofar as they are related to criminal activities, and will prevent anyone using SCG as a channel or instrument for the dispersion or concealment of illegally obtained assets.

Guidelines

1. Before engaging in a transaction, find out if the contract partner legally obtained his /her money.
2. Do not transfer to unknown account or receive abnormal payment especially from the country not relating to the transaction.
3. If you notice an unusual transaction, immediately report it to your superior.

Examples

1. An overseas debtor asks to pay off his account with SCG via a tax haven, i.e., a country with a tax-related privilege or exemption. Is it possible?

Advice: Transfers or payments of money via tax havens are not illegal, but you must make sure that the contracting party is credible and has a business background open to investigation.

2. A debtor wants SCG to accept payment from an unknown individual who is not a party obligated to the contract.

Advice: Avoid receiving payment of debt from any person who is not a contracting party. If necessary, you should attempt to learn the source of all money involved in a transaction, relationship between debtor and transferor and background of the transferor.
