Operating Results for the period of Q3/22**

The Siam Cement Public Company Limited (or “SCC”) hereby submits the 1) unreviewed interim consolidated financial statements, and 2) management discussion and analysis (MD&A) for the period of Q3/22, ended September 30, 2022. Details of the operating results are as follows:

For the period of Q3/22, consolidated revenue from sales increased 8% y-o-y to Baht 142,391 million, driven by higher product prices in-line with the market of Cement-Building Material and Packaging businesses. Consolidated profit for the period of Baht 2,444 million, a decrease of 64% y-o-y, attributable to lower chemical’s spreads and higher energy cost as well as lower equity income from associates.

For the nine-month period of 2022, consolidated revenue from sales increased 15% y-o-y to Baht 447,419 million, due to higher sales across all businesses mainly from higher product prices in-line with the market. Consolidated profit for the period registered Baht 21,225 million, a decrease of 45% y-o-y, largely driven by higher feedstock and energy cost as well as lower equity income from associates.

As of September 30, 2022, consolidated total assets amounted to Baht 929,931 million, an increase of Baht 68,830 million from the year ended 2021.

Yours sincerely,
